

COURTESY OF THE DORRIS FAMILY COLLECTION

A 1921 Dorris 6-80 touring car at Grant and Post Streets in San Francisco (currently Harry Winston). Founded in 1906, Dorris took over the original St. Louis Motor Company plant. There, it created the float carburetor that would be used for decades. "Build up to a standard, not down to a price," urged the slogan; the company's first cars cost almost \$7,000.
